

PROPANE AUTOGAS SCHOOL BUS MANUFACTURERS

When schools adopt propane autogas school buses, everyone — students, parents, and educators — wins. Schools can reduce fuel and maintenance costs with propane autogas buses compared with diesel, giving them the opportunity to invest those savings where it matters most — back in the classroom. Here's a list of propane-powered school bus manufacturers.

Blue Bird Corporation

www.blue-bird.com

Blue Bird offers a complete line of Type A, C and D school buses in a variety of options and configurations. Since 1927, Blue Bird Corporation has continued to set industry standards with its innovative design and manufacturing capabilities. Additionally, Blue Bird provides comprehensive financial solutions through Blue Bird Capital Services. Today, Blue Bird has more than 1,500 employees, Georgia-based manufacturing facilities and an extensive network of Dealers and Parts & Service facilities throughout North America. Its global presence can be seen in more than 60 countries through sales into Africa, Asia, the Caribbean, Latin America, Europe and the Middle East.

Collins Bus Corporation

www.collinsbuscorp.com

Headquartered in Hutchinson, Kansas, Collins Industries specializes in manufacturing Type A school buses, and also manufactures ambulances and other special-purpose vehicles. The company's Nexbus Propane model is available only on a GM chassis. It was built in conjunction with CleanFUEL USA, which was the first company to develop liquid propane fuel injection engine systems in the United States.

IC Bus

www.icbus.com

Each vehicle built by IC Bus is backed by the power of Navistarr, a global leader in the transportation industry with more than 175 years of experience building trucks, buses, RVs, and defense vehicle. Founded in 2002, the company shares the same cutting-edge engineers, integrated manufacturing expertise, marketing and service resources, and vision for an exciting future.

Thomas Built Buses

www.thomasbus.com

One in three school buses on the road today is a Thomas Built bus. Thomas Built Buses is a subsidiary of Daimler Trucks North America LLC, which is the largest heavy-duty truck manufacturer in North America. That gives Thomas Built the backing and resources to continually research innovative solutions and respond to the needs of its customers. The resulting full line of driver-friendly school, activity, commercial, and specialty buses, are manufactured and produced in High Point, North Carolina, and are sold through independently owned dealerships throughout North America.
